PERSONAL PROJECTS

Hear The Unheard — NextJS/SanityCMS/ChakraUI

Hear the unheard is a non-profit, they help people with communication impairment. This is a statically generated site and the whole site has Sanity's headless CMS coverage.

https://hear-the-unheard.vercel.app/

Cool Movie App — React

Cool movie app is a movie/tv show watchlist tracker. Built with TMDb API, firebase authentication and firebase firestore.

https://coolmovieapp.netlify.app

AWWA — Gatsby

AWWA is a Singapore based social service agency. The site was built with Gatsby's static site generation.

https://awwa.netlify.app

Personal Website Of Rudra — NextJS/SanityCMS

This is a personal website for a friend which is statically generated with NextJS and has SanityCMS for its backend.

https://rudranilutsa.netlify.app/

Zapomnit' NATO — NextJS

Zapomnit' NATO is a Russian sentence which translates to "Memorize NATO". This site helps you memorize NATO phonetic alphabets with correct pronounciation.
